

# The Kingston Daily Freeman

VOL. LXL—No. 239.

CITY OF KINGSTON, N. Y., WEDNESDAY EVENING, JULY 27, 1932.

PRICE FOUR CENTS.

## Masonic Lodges Vote To Purchase Gray Property

**Albany Avenue Property to be Used for Masonic Purposes—Lodge Rooms to be Built in Rear—To Take Possession About First of Year—Both Lodges Unite in Buying New Home.**

Kingston Lodge, No. 10, and Roundout Lodge, No. 343, F. & A. M., have voted favorably on the proposition to purchase the Gray property on Albany avenue adjoining the Governor Clinton Hotel. The price to be paid is \$30,000, and includes the large residence property and over five acres of ground. The lodges plan to take possession about January 1.

For years both Kingston and Roundout Lodges have been talking of erecting a Masonic Temple in this city, but nothing real definite had ever been accomplished, although both lodges had established building funds.

Last month each lodge appointed a committee of three members with power to take an option on a site for a Masonic Temple. Monday evening the committee submitted its report to Roundout Lodge on having taken an option on the Gray property. The report of the committee was ratified and the lodge voted in favor of the proposition of purchasing the Gray property.

Tuesday evening Kingston Lodge met and took similar action.

Under present plans the residence property will be used for club purposes, while a large and modern lodge room will be erected in the rear of the residence. Work on this lodge room will likely not be started before next summer.

Roundout Lodge for years has been meeting in the lodge rooms in the Masonic Building, Broadway and Strand, while Kingston Lodge has been meeting in its lodge rooms on Wall street. It is understood that both lodges have taken a further year's lease on their present lodge rooms.

The Gray property is ideally located for Masonic purposes with plenty of ground on which to erect a lodge room, and also afford parking grounds for the use of those attending lodge sessions.

## Tremper Died Here Of Heart Attack

**Walter Louis Tremper, President of Marine Engineers' Association Seized in Lobby of Kingston Theatre on Tuesday Afternoon.**

Walter Louis Tremper, one of the best known marine engineers on the Hudson river, was seized with a heart attack and collapsed in the lobby of the Kingston Theatre on Wall street on Tuesday afternoon. He was rushed to the Benedictine Hospital in the ambulance but died shortly after being admitted. When seized with the attack Dr. Maurice H. Silk was summoned and administered a heart stimulant.

For many years Mr. Tremper was an employee of the Cornell Steamboat Company, and during the many years he followed the river he became widely and favorably known. He was president of the local Marine Engineers' Association.

Fraternally Mr. Tremper was a member of Roundout Lodge, No. 343, F. & A. M., and of Mt. Hope Chapter, No. 75, R. A. M., and of the Junior Order of the American Mechanics.

Mr. Tremper was a son of the late Harry A. and Anna Doremus Tremper and is survived by a sister, Mrs. Eugene Livingston of 184 Highland avenue and a brother, Harry A. Tremper, of Fishkill. Deceased was a brother of the late Edmund D. Tremper. Funeral services from the home of his sister on Thursday afternoon at 2:30 o'clock. Interment in Montrose cemetery.

## DIVORCEE JUMPS TO DEATH FROM BUILDING

New York, July 27 (AP).—Mrs. Nina R. Cutter, a 44-year-old divorcee, jumped to her death today from the roof of the ten story building in East 59th street in which she had a ground floor apartment.

Major John Hanna, who occupied a room in Mrs. Cutter's apartment, denied a report to police that he and Mrs. Cutter had recently obtained a marriage license. He said she suffered from a nervous disorder and only yesterday had threatened to commit suicide.

## Missing Plane Found

Buffalo, N. Y., July 27 (AP).—The Buffalo-Toronto passenger plane, reported missing from the Canadian city, arrived there late last night after being delayed by a storm, according to word received at the airport here.

## Notchman Dead

Glens Falls, N. Y., July 27 (AP).—Maurice J. O'Connor, 72, veteran Adirondack hotel proprietor, hit on a rock, died at his son's home here last night. He was owner of the Warren and the Adirondack Hotels.

## Further Testimony Given in Roadway Injunction Action

Several witnesses were sworn at the morning session of the injunction action brought in supreme court by Otto Mollenhauer and Louisa Mollenhauer against Margaret and Alfred Ackerman and the Central Hudson Gas and Electric Corporation. Among those who testified for plaintiff was Mr. Webster, who resided on the farm during the early 1890's. He said he and his father used the road in question in 1893 to perhaps 1896. In going to school at Rosendale Plains he traveled from the present Mollenhauer farm over the road in question to the Krom corner and then James street and through the sand cut to school.

There was a gate at the property line between the present Mollenhauer property and that occupied now by Ackerman. The road was not obstructed in those days and his father worked out time on the road from Krom's farm toward the Mollenhauer property. He said he never saw a ford for vehicles to the creek in front of the Mollenhauer house and across the creek and up to the Rock Lock road. There was a fording place used by pedestrians who were ferried across in a square stern boat. This path led past the corner of a barn and up past the Webster lock to the Rock Lock road. At that time Jerry Lane lived on the property now occupied by Ackerman.

**Told of Right of Way.** Examined by Mr. LeFever, the witness said he had been told by his father that there was a right of way across the creek to Webster's lock. Many people used it. It was not a road but was used by people walking. When they drove a rig they used the road in question.

Former Supervisor and Road Commissioner DuBois was called and said he was 63 years old and had been road commissioner in 1898 and 1899. The first year he was road commissioner many worked out their time on the roads but the next year law changed and he measured the town road mileage in order to get paid. He measured over the required 50 mile limit to secure aid. In measuring the public roads he was instructed to measure the road in question and it was .6 of a mile in length. He had a map made at the instigation of the town board and the map was produced and showed this road now under discussion as a part of the town system. On cross examination he said he measured the road from Krom's corner to the Sheely place, now Mollenhauer's.

## Driscoll Used Road

Philip Driscoll, a resident of Arlington, said he was born in 1875 in the town of New Paltz and came to Rosendale when four years old and lived until 1916 in the town. His father, Dan Driscoll, owned the present Ackerman farm in conjunction with the Cornell homestead place. He said for some twenty-five years he had used the road in question. The only gate was at the Mollenhauer farm line. Mr. Mollenhauer asked permission to move the gate once and Mr. Driscoll told him to move it any place he wanted to. There was some discussion over the Mollenhauer horse running away and the position of the gate was changed to accommodate Mr. Mollenhauer. Mr. Driscoll said he could recall several people owning the Mollenhauer farm and all used the road in question. The road was never obstructed.

Cross examined Mr. Driscoll said he and his father worked the farm now occupied by Ackerman but lived on the Cornell property across the creek known as the old homestead. A private right of way led from the premises to the Rock Lock road.

There was some confusion as to the fording places on the Rondout in the vicinity. Mr. Driscoll said they used a fording place in going from their home by going up the creek near Rosendale village's main street and over to the Ackerman place. He said he had crossed the ford at this locality with a load of hay in low water.

## Another Ford

Examined by Lloyd R. LeFever the witness said he was referring to the ford on the old King's Highway which is near the main street of Rosendale. There the creek crossed the road leading up to James street and on over to Tillson. This ford is three miles from the Mollenhauer place and is not the ford referred to as being from the Mollenhauer property to the Rock Lock road.

Luther Keator, road commissioner in 1916 and 1917, was called. In 1916 he had the road repaired from Krom's corner toward the Mollenhauer place. He scraped and worked the road until the appropriation made for the road was exhausted. It was not worked to the Mollenhauer line.

He said he had drawn powder and supplies over the road in question when the powder mill was running at the junction of the Walkkill and Rondout creeks. At times the company ferried powder across on a scow to the Rock Lock road and then the teams went over the LeFever Falls road to Rosendale. The Creek Locks road was used. He said the plant was on the east side of the Walkkill and in the town of Esopus. The powder was ferried across the creek, he thought the Rondout creek. He did not recall there being two scows, one across the Rondout and one across the Walkkill. He said he thought there was but one and that was across the Rondout creek. Mr. Keator said he had drawn hay from the Ackerman place over the road in question. He said he knew of a scow used.

## Mayor Appeals to City's Unemployed

Office of the Mayor, City of Kingston, New York, July 27, 1932.

To the Unemployed of Kingston: Since I assumed office on January 1, I have been besieged at my office in the city home, at my home, at my place of business and on the streets by an army of men and women begging for work. It is a situation that has never before been confronted by a mayor of our city. I have attempted in every way possible to create employment to alleviate the situation. I have tried, and it has caused me to give at least half of my time in the office in the city hall, to see personally as many as possible who were seeking work.

Conditions have become so since the work relief ended about the middle of May that I could not find time to see one person and I have had to have come to my office whom I could not interview. The condition has become so serious that I decided to interview people looking for work only between the hours of 10:30 and 11:30 every morning. When I arrived at my office in the city hall at 10 o'clock this morning there were at least 250 men standing in the hallway waiting for me. As it was impossible to grant everyone a personal interview, I stood on the steps leading to the third floor and addressed the small army of unemployed. I told them that last evening the board of public works voted to ask the common council for an additional appropriation of \$100,000 to be used for permanent improvements and betterments of our city streets. I also told them that on August 2, at the meeting of the common council, I would urge the common council to grant the request of the work relief bureau, which was presented at the June meeting of the common council, for an appropriation of \$55,000 to do work on the Boulevard, Washington avenue, Wall street and Fair street. It is absolutely necessary that this additional money be appropriated in order to put to work at least a part of our \$100,000, and the number of which will probably be found to be at least 2,000. At the June meeting of the common council I gave notice that the city was handing out in food orders at least \$2,000 per week, and that amount is still being continued. There are many able bodied men drawing home relief orders, the majority of whom would rather work for their existence. Therefore, I say to our unemployed that if the common council will grant the appropriations asked for and provide the money by a ten year bond issue of \$100,000, and a five year bond issue for the \$55,000, the majority of our unemployed can be put to work by August 8, and the heavy expenditures now being made per week by the home relief office can almost in its entirety be eliminated. I urge the unemployed to bear with the administration just a bit longer.

Respectfully,  
EUGENE B. CAREY, Mayor.

## Four Cases Before Judge Culloton

Nicholas Schwartz of Garden street, who was arrested earlier in the week on a charge of having a revolver in his possession without having a written permit for the same, this morning in police court changed his former plea of not guilty to one of guilty, and was fined \$5 by Judge Culloton.

Schwartz was arrested after the police had received a telephone call from Mrs. Schwartz from Mt. Tremper. She claimed her husband had a revolver and had threatened her, and that he had then left and gone in the direction of Kingston. He was apprehended on Washington avenue later by the police.

Patrick McCadden, who claimed his home is in Oswego, and who was arrested here on a charge of attempting to beat his board bill at the Hotel Ulster, changed his former plea of not guilty to one of guilty and was fined \$25. The local authorities hold a warrant for McCadden under the name of Frederick from the Newburgh police. The warrant in the downriver city charges him with petit larceny.

McCadden's wife and two small children, who were with him for a time here, have returned to her folks in Margaretville.

Edward A. Wallace of Hamilton, N. Y., who was annoying the residents of South Prospect street on Tuesday afternoon by ringing the doorbells and soliciting money, was sentenced to 10 days in jail. He told the court all he was doing was trying to raise enough money to pay his ferry fare across the river.

Joseph Wells of Post street, arrested for public intoxication, was sentenced to 5 days in jail.

## LIGHTNING STRUCK COASTGUARD TOWER

Rochester, N. Y., July 27 (AP).—A bolt of lightning struck the 45-foot lookout tower at the East Pier of the United States Coast Guard Station at Summerville, on Lake Ontario, today, damaging its steel and wooden frame work.

Frank L. Wolney, 22, the lookout on duty at the time, was injured either by the bolt or by falling debris and taken to a hospital.

The doors and windows of the lookout station were shattered and part of one side was torn away. Wolney was the only man in the tower at the time.

The Summerville lighthouse, farther out on the lake, was not damaged.

## Conference Turn Threatens Large U. S. Investment

United States Investment of \$200,000,000 in Canada Threatened by Plans of Imperial Trade Conference.

Ottawa, Ont., July 27 (AP).—The future of more than 100 American branch plants in Canada, representing an investment of approximately \$200,000,000, was in the balance today as an imperial trade conference committee took up the question of "empire content."

"Empire content" is the percentage of empire materials or labor which an article must contain to qualify for customs entry under empire preferential tariff rates.

At present, with certain exceptions in individual instances, the standard of empire content now is 50 per cent in Canada and New Zealand, 75 per cent in Australia and 25 per cent in the Irish Free State, the United Kingdom and South Africa.

What the conference may do about a blanket increase in the required percentages or in special restrictions on selected articles is of very real concern to the American branch factories in Canada and to American business interests supplying products to be finished by Dominion or other concerns within the empire.

## Want Equal Percentage

There is a notion among the delegates that the percentage of empire content should be uniform among the dominions and colonies with expected items where necessary.

A sub-committee was appointed yesterday to consider the comparative advantages of:

- (1) High empire content with exceptions downward.
- (2) Low empire content with exceptions upward.

British industrialists want an increase in the British empire content rate. They argue that it is not high enough to prevent American manufacturers sending parts to Canada, assembling them in a Canadian branch factory, and shipping the finished product to Great Britain under British preferential rates. And if the British rate of 25 per cent were increased to the Canadian rate of 50 per cent, they have pointed out, Canadian labor would benefit in proportion.

American business leaders were quoted here as advising caution in Canadian branch factories lest those which merely assemble American parts across the border find their costs increased by higher empire content requirements or their investment jeopardized by the possibility of an economic conference putting into effect lower American-Canadian tariffs as a result, perhaps, of a generally lower tariff structure among empire nations.

## To Expand Capacity

In conflict with this view, however, was a report in conference circles that the United States Company plant at Ojibway had instructions to expand its capacity in the event Canadian and British steel interests successfully concluded negotiations looking toward the latter supplying materials not conspicuously manufactured here now.

One observation was that Canada follows American steel patterns rather than British and that a change might entail essential failures. Furthermore, it was said, the United States, or American plants in Canada, have greater advantage in supplying and servicing the steel demands of a population concentrated 200 miles deep all along the border than has the United Kingdom which, after an ocean haul, must work straight inland for 3,000 miles.

It was understood the steel accord was making further progress than any other of the major bargains before the conference. The official American view expressed today was that while a possible agreement to grant free entrance to British cotton textiles might cut in on the American trade, it was likely that women, particularly in Canada, used as they are to New York styles and American magazine advertising, would be hard to win to British goods.

## Lumber a Problem

On the question of lumber a possibility was seen that Douglas fir and timber from Washington and Oregon might be discriminated against in favor of that of British Columbia.

Canada and other empire nations have shown a tremendous interest in the United Kingdom's annual outside purchases of \$36,000,000 worth of meat, \$22,000,000 of which is represented by American lamb, pork and pork products constitute America's chief meat export to the United Kingdom. British trade figures show a preference for United States bacon over Canadian, but Danish and Irish bacon dominate the British market.

## Crushed to Death

Lockville, N. Y., July 27 (AP).—Edward Wolschlag, 43, was crushed to death yesterday when the sub base of pavement under which he was working, caved in. Two companions were not hurt.

## Hail Storm in Canada

Calgary, Alberta, July 27 (AP).—Hail struck Central Alberta last night causing 40 to 80 per cent damage to crops in the southeastern section of the Inland district.

## Treasury Receipts

Washington, July 27 (AP).—Treasury receipts for July 25 were \$4,724,598.65; expenditures \$17,765,678.52; balance \$158,186,177.07. Customs duties for 25 days of July were \$14,562,932.21.

## Public Works Board Asks For \$100,000 Bond Issue

**Prepares Plan for Improving 21 Streets in Various Parts of City Provided Aldermen Authorize Issue of Bonds—Local Musicians' Union Plan Free Concerts and Merchants Plan Dollar Day.**

## Will Arm Germany Unless the World Reduces Its Arms

General Kurt Von Schleicher Believes World Over Radio Saying His Country Will Seek Security By Reorganization of Its Armaments.

Berlin, July 27 (AP).—The voice of General Kurt Von Schleicher, veteran of the Kaiser's armies, broker of wild horses and power behind the throne of the Von Papen government, was out in the open in the Reichstag election campaign today, with a note of defiance for the world.

In a radio address last night he served virtual notice on the world powers that unless Germany is granted equality and released from the limitations of the post-war treaties she will proceed to establish her own security by a reorganization of her armed forces.

## Security For Germany

Security for Germany, he said, could only be attained by the other powers scaling down their armament to Germany's level, or by reorganizing—not increasing—Germany's own defenses.

A foreign office spokesman explained today what the general meant by reorganization.

"The provisions of the Versailles treaty covering munition factories," he said, "make it obligatory to operate those factories uneconomically, and that results in a waste of army funds. General Von Schleicher wants to achieve better results by more economical operation. That is what he means by reorganization."

"In addition to that Germany can increase her securities by permitting proper physical development of her youth, even without direct military training by putting young men in a position to help ward off the attack of a powerful opponent on what has been up to now an almost defenceless people."

He said the government had no intention of absorbing Adolf Hitler's storm troops into the army. The qualifications which determine the selection of the storm troops, he said, are quite different from those of the army.

Regarding the alternative of reductions of armaments of other powers to Germany's level, he said: "There aren't many who believe that miracles will happen."

"We shall take the other course," he added, "if security and equality are denied us in the future."

"Timid souls may object that it will cost money we cannot afford," he went on, "but to them I reply that a moderate, relatively adequate, defense force is not dearer than our present one under the Versailles treaty, which imposed some senseless conditions entailing useless and unproductive expenditures."

## Value for Money

"Every sane German will agree that the best value must be got out of every penny spent on the country's defense."

The general also informed the nation he was opposed to a military dictatorship. Such a government is out of the question, he said, because the only government possible is one supported by the broadest majority of the people.

French apprehension of German organization, he said, apparently referring to such groups as Adolf Hitler's National Socialist storm troops, is unfounded. Hitler was right, he said, in declaring that the reichswehr (the army) was responsible for the defense of the nation.

## Gallmyer Heads Walther League

Los Angeles, July 27 (AP).—With the election of officers and selection of the 1933 convention city, the International Walther League, except delegates to sectional conferences, forsook the convention hall today for ocean beaches and other places of entertainment.

The convention, which closes officially Thursday, heard managers of various league activities read reports on summer conferences, education, sanitariums and hospices.

Eight entrants in the league's oratorical contest completed delivering their speeches and judges were expected to announce the winner at the close of today's conference.

The Rev. Erwin Umbach, considered the leading light of the Lutheran young people's organization, in his report on the educational department, outlined what each league maintained in lecture tours, a short story writing contest and other endeavors.

E. J. Gallmyer, Ft. Wayne, Ind., postmaster, was re-elected president of the international organization.

Chicago and Chicago selected as the 1933 convention city.

## Music and Dollar Day

Commissioner E. Frank Flanagan called the board's attention to the fact that the merchants are planning to hold a Dollar Day on Wednesday, August 17, and that on Tuesday, August 16, the local musicians' union plans to give a series of free concerts as its contribution to "Living Music Week," which will be observed by musicians all over the country.

He said that the local union is planning to hold several free concerts that evening in the city and as the regular municipal band concert in Forsyth Park is also planned for Tuesday evening it was decided to hold the band concert on some other night so as not to conflict with the program of the musicians' union.

The series of free concerts on Tuesday night would usher in the Dollar Day to be held on Wednesday. It was stated that any plans made by the merchants and the local musicians would meet with the approval of the board.

## New Signs Needed

Mayor Carey called the attention of the board to the fact that owing to a change in the state law it was necessary to replace the present signs erected at an entrance to the city. The new law required the signs to be 4 by 4 feet and contain 6-inch lettering calling attention to the speed limit in the city.

It was said that 25 signs were needed and that the signs were being constructed by employees of the board and as soon as completed would be positioned.

## Consider Sewer Report

Mayor Carey stated that City Engineer Arthur Hallinan and himself had been busy going over the sewer survey of the city made last year by Sanborn & Berger, and that the city engineer desired a further extension of time before submitting his report.

Harry Struble's request for permission to erect a refreshment stand in Cornell Park, similar to the one in Forsyth Park, was referred to the park committee.

## Tremper Avenue Completed

The Work of laying an Amalite pavement on Tremper avenue was reported as completed. Mayor Carey said that he had received many favorable comments on the new pavement.

Several routine matters were disposed of and the board then adjourned.

## AWAIT GRAND JURY'S ACTION IN DISORDERS

Malone, N. Y., July 27 (AP).—Developments growing out of disorders attending the enforcement of prohibition in Alexandria Bay hung fire today, awaiting the pronouncement of a grand jury that has heard the testimony of more than a score of residents of the fashionable Thousand Islands colony.

Whether the grand jury would attempt to fix responsibility for the trouble or hand down indictments, was an unknown quantity.

## CAP PISTOL FAILS AS AID TO ROBBERY

Newark, N. J., July 27 (AP).—On July 1 Philip Cincotta bought a cap pistol for his children.

On July 27 he found himself in jail for attempted robbery.

Having the cap pistol in his pocket yesterday—and nothing much else—he attempted to rob a store. He laid the gun down while binding the storekeeper, and in a jiffy found himself looking into the muzzle of a real pistol.

His Independence Day investment promises to have much to do with curtailing his liberty.

## Financial And Commercial

New York, July 27 (AP).—After a morning of uncertainty during the morning, the stock market responded more to bullish stimulation to 37.

Steel weakened rather emphatically for a time, on publication of the quarterly reports of U. S. Steel and several of the independents, showing deficits fully as large as expected. The regular U. S. Steel preferred dividend prompted profit taking in that issue. A fairly favorable power production report, however, and the recall of workers at the RCA-Victor plant, provided speculation for the rise with fresh ammunition.

In the electric power group, gains of 1 to 2 points appeared in American Water Works, Standard Gas,

## New York City Produce Market

New York, July 27 (AP).—Rye, firm; No. 2 western, 45½¢ f. o. b. N. Y., and 46½¢ c. i. f. N. Y., domestic to arrive.

Barley, firm; No. 2 41½¢ c. i. f. N. Y.

Lard, easy; middle-west, \$5.55-5.65.

Other articles, unchanged.

Potatoes, 25, steady. Md. and Va. obli., \$1.50-2.25; L. I., 150-lb. sacks, \$1.75-2.00; N. J., 150-lb. sacks, \$1.75; N. J., 100-lb. sacks, \$1.00-1.10.

Butter 15.036, very firm. Creamery, higher than extra 19½¢-20¢; extra (92 score) 12¢; first (87 to 91 score) 17½¢-18½¢; seconds 16½¢-17¢; packing stock, current make, No. 1, 13¢; No. 2, 12¢.

Cheese 365,143, steady, unchanged.

Eggs, 29,550, firm. Mixed colors, standards (cases 45 lbs., net) 17½¢-18½¢; rehandled receipts (cases 43 lbs., net) 16½¢-17½¢; no grades 14¢-15¢; special packs, including unusual henery selections sold from store on credit 19¢-21½¢; mediums 14½¢; dirties 14¢-14½¢; refrigerators, special packs 18½¢; standards 16½¢-18¢.

White eggs, selected specials and premium marks, 25½¢-26½¢; near-by and mid-western, best, open market offerings, (45 lbs., net) 21¢-24½¢; standards, (cases 45 lbs., net) 19¢-20½¢ lighter weights and lower grades, 16¢-18¢; mediums, 17½¢-21¢; peewees, 12¢-13¢; Pacific Coast, fancy packed, shell treated and liners, 24¢-25½¢; Pacific Coast, standards, 21¢-23½¢; Pacific Coast, shell treated or liners, mediums, 19½¢-20½¢; brown eggs, near-by and western special packs, private sales from store, 19¢-27½¢; western standards, 18½¢.

Dressed poultry irregular, unchanged.

Live poultry irregular. Broilers, freight 12¢-18¢; express 10¢-22¢; fowls, freight and express 13¢-17¢; roosters, freight and express 10¢; turkeys, freight 12¢-18¢; express 15¢-20¢; ducks, freight 8¢-10¢; express 12¢-15¢.

## Orders Lacking to Oust Bonus Army

Washington, July 27 (AP).—Police action to evacuate public property of bonus marchers again was delayed today by the absence of specific orders from the treasury department.

George W. Rhine, contractor engaged to clear the occupied property on Pennsylvania avenue just west of the capitol, likewise deferred sending in a wrecking crew to clear away the bonus seekers' shanty-town.

Thus for a third time a deadline for evacuation by the former soldiers had been set by officials only to be reached with a postponement of action to clear the grounds.

Pelham D. Glassford, superintendent of police, announced after a conference with Walter W. Waters, the bonus commander:

"I have no orders to vacate this property and Waters says he will not do so voluntarily."

The veterans' forces estimate at 2,000 also were augmented by men drifting in from the other camps while Pennsylvania avenue was lined with onlookers.

Major Edward Keyes, construction engineer, was on the ground as observer for the treasury but did not have orders for Glassford to proceed.

Keyes and his assistants had about 40 workmen waiting to go ahead.

"The last I heard was not to go ahead until further legal steps had been taken," Glassford said. "That was last night and I have heard nothing since."

Spiders Have Experience

I began to understand the world very well, and I believe that flies are devoured by spiders because they have no experience and hence do not know what a spider web is.—Prince Metternich.

Elephant Graveyard Myth

The many stories about elephant graveyards have never been verified by the actual discovery of such burial places for elephants.

Timothy Dillon of West New Brighton, Staten Island, has just purchased an Auburn custom sedan from the Every Sales and Service, Eagle Garage, Main street.

Pacific Lighting, Commonwealth and Southern Preferred and United Corp. Preferred. Radio Corp. common gained fractionally, and the preferred 2 points. Miscellaneous rails were higher, 1-point gains appearing in Union Pacific, Northern Pacific, Illinois Central and Atlantic Coast Line. Losses of about a point in American Telephone and Western Union were recovered. Standard of N. J. and U. S. Steel common sagged, fractions, and failed to rally with much enthusiasm. U. S. Steel preferred dropped 4, then recovered much of its loss. Trading was moderately active.

What with hopes of autumn business recovery growing more sanguine, and important selling pressure having been kept off the market for several weeks, speculators for the rise were more successful in attracting a public following than they have been in months. While the so-called public was nibbling with extreme caution, some commission houses reported the best public response of the year, and the long deserted board rooms were fairly well filled in many instances. The turn was still regarded with a good deal of skepticism in some quarters, however.

Electric power output for the week ended July 23 was off 13.1 per cent from last year, or slightly better than the 13.9 per cent drop of the previous week, which had made the worst comparison so far this year.

The RCA-Victor Co., manufacturing subsidiary of the Radio Corp. of America, is recalling some 5,000 workers at its Camden plant, after a prolonged shutdown. News of resumption of this kind is trickling in from various cities, and while it is largely seasonal, it is having a good effect upon sentiment. In view of the fact that the usual seasonal quickening was almost entirely lacking during the spring, it is hoped that the usual autumn bulge will be more impressive. Deferment of buying of essentials such as wearing apparel usually results in a belated wave of buying, regardless of general economic conditions.

## Bearsville and Woodstock Schools Hold Joint Meet

Law Saturday evening, July 23, a special school meeting with George H. Elwyn, former township supervisor as chairman, was held at the Old Fellows Hall, Bearsville, for the consideration of a central school system for Districts 1 and 2. The importance of the meeting may be stated best by saying that it was the first joint meeting of the two school districts since the idea was started over a year ago in Woodstock, and is such indicative of a great forward step in the promotion of the scheme. In School District No. 2, Woodstock, about 55 per cent of the voters have signed the petition asking the change, while 45 signatures have been obtained from School District No. 1, Bearsville, which means the consent of approximately 50 per cent of the electors in that locality.

The meeting was opened by Wallace J. Andrews, of Shokan, district school superintendent, whose remarks concerning the revolutionizing of the present educational scheme to conform to the provision of the State Board of Regents for school centralization in rural sections were to the effect that in no way do the taxpayers of districts affected hold themselves liable to the entire burden of taxation in order to insure the success of the change, for state aid is mandatory once proposals have been checked and accepted by educational authorities from Albany. Furthermore, state aid is of such proportion as to make any increase of taxation caused by improvements and centralization very slight. The amount available is shown in the budget, which appears below.

Questions relative to the system were read by Miss Anita M. Smith, of Lake Hill, and answered by William S. Elwyn, postmaster, of Woodstock. The great benefits to be derived are that eventually the school tax rate is lowered to a stable minimum, and there will be no more than two grades in any classrooms, which, in comparison to the present rural condition prevailing, would reduce the proportion of grades under one teacher approximately one-half, in many cases four times. There would be eliminated, also, transportation and tuition charges to Kingston High School that are now paid by the several communities in the district discussed. Additional benefits are increased free educational lectures, organized sports to benefit local students of both sexes, clubs of various sorts which will help to round out the curricula and the general engendering of local solidarity as to human associations and environment. Emphasized as one distinct benefit to the economic welfare of the town itself is that the modernized and enlarged central school will keep many of the leading residents in the village all the year around, and will attract other desirable.

Efforts are being made by those interested in the central school idea to procure the support of all within the districts to be benefited. It has been requested that those readers of the Freeman within the section mentioned read the following possible budget for the proposed Woodstock Valley Central Rural School, study its liabilities and benefits and discuss the situation with William S. Elwyn or Mr. Andrews at any time. The outline is as follows:

**Receipts.**

District and equalization quotas	\$25,971.80
4 on bonds and interest	2,312.50
Transportation quota	1,925.00
Total state aid	\$30,209.30
9-mill tax on assessed valuation, \$1,387,847	12,580.62
Total receipts	\$42,789.92

**Payments.**

Teachers	Pupils Salaries
1 supervising principal	25 \$2,500.00
1 kindergarten	25 1,400.00
1 1st and 2nd grades	30 1,400.00
1 3rd and 4th grades	30 1,400.00
1 5th and 6th grades	30 1,400.00
1 7th grade	30 1,400.00
1 8th grade	30 1,400.00
200 pupils	
6 outside teachers, each	\$1,300.00
	7,800.00
3 special teachers, 1 \$900 (art), 2 each \$1,400 (music and physical education)	3,600.00
Academic tuition and transportation	2,513.00
Bonds (principal) per year	3,000.00
Bonds (interest) (\$125,000 at 5 per cent)	6,950.00
Transportation, 70 pupils each \$35	3,550.00
Janitor and other employees	1,400.00
Fuel	905.00
Other expenses of operation (light, power, water, grounds)	534.44
Maintenance of school plant (repairs and replacements)	900.00
Auxiliary agencies (medical inspection, recreation, etc.)	500.00
Miscellaneous expenses	337.48
Total expenses	\$42,789.92

School tax for town of Woodstock, 1931 \$14,795.62  
Tax for proposed central district, 1931 12,580.62  
Tax saving \$2,215.01  
Present average tax rate for school purposes in town, \$11.15 on \$1,000.  
Tax rate for proposed central district, \$9.94 on \$1,000.

**Today**  
Kingston: "Rebecca of Sunnybrook Farm." This well remembered story of the stage and screen proves to be a personal triumph for Marion Nixon in the title role that Janet Gaynor refused to take. Miss Nixon gives the most beautiful and moving performance of her career in this romantic and restful talking picture. A picture recommended for both old and young, for this closely adapted story from the silent version of a few years back, has taken on added effectiveness with the addition of voice. Ralph Bellamy, Louise Closter Hale, and Mae Marsh are also in the cast.

**Orpheum: "Secret Service" and "Salvation Nell." Richard Dix** is the star of the first talkie, a story of the Civil War. Shirley Grey and Nance O'Neill are in the supporting cast. "Salvation Nell" is played by Helen Chandler, supported by Ralph Graves.

**Broadway: "International Revue"** on the stage, and "Beauty and the Boss" on the screen. The stage show is a musical comedy presentation of Ben Marcus, with a cast of fifty people. There are a number of elaborate scenes, and the large

## Fashions by Eleanor Gunn

Midsummer Is Developing Some Smart Fashions

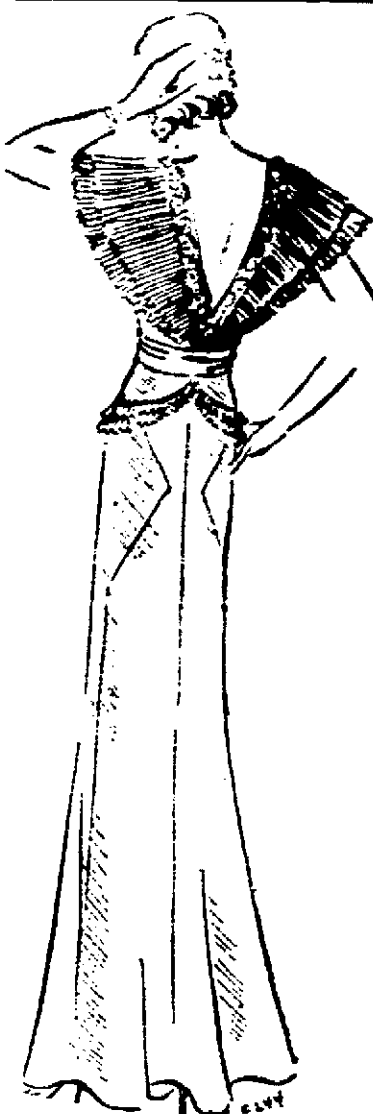

TAPERING PLEATS BORDER THE "V"

New York—Dressmakers seem to be going in for the permanent way—or its equivalent, the permanent pleat. Here's a charming dress designed by the famous couturier, Lucien Lelong for his wife. It is only one of several dozen examples of the effectiveness of pleating, and the pleating is only one of the many kinds being used by European as well as American dressmakers.

It is a nice idea to widen the hips in sympathy with the shoulders—a kindly idea, too, since a narrow waistline is the result. There is no evidence so far submitted to lead one to suppose that there will be any change of heart in the autumn about the wide shoulder line. Only something by way of a miracle can save us now from big sleeves.

There seems to be "rough-going" ahead for crepes. It is the pebbly crepes that are talked about for autumn, and they are the ones we will surely want. They are very new and different-looking and may be combined, with their usual smart effect, with satins. Paris always has retained and probably will retain its affection for the dull and shiny fabric alliance. For this reason, two-faced fabrics are always approved when they provide this highly desirable surface contrast.

Dressmakers have definitely decided that a fabric may live down its past and become something far better than its origin might indicate. For instance, imagine conservative England appearing in "bed-ticking"—and, of all places, at Ascot! Yet one of the suit styles noted at Ascot on a day when less formal clothes were worn, was navy-and-white striped cotton "bed-ticking" from a London dressmaker. It was chosen by both Lady Forrester and Lady Oppenheimer and was worn with white muslin blouse, white hat, white gloves, and navy-and-white shoes.

(Copyright, 1932, by Fairchild)  
Designed especially for Madame Lucien Lelong, the dress above is of white silk pique, with its finely pleated ruching of white organdie held at the décolleté by a band of pique white gloves, and navy-and-white shoes.

### A Shirtwaist Dress—If You're the Type

(Copyright, 1932, by Fairchild)  
Here are three outstanding tailored restricted to sports wear. They are types of the summer mode, all of just the type of dress that the average which may be duplicated in flannel girl or woman finds indispensable for or other lightweight wool or heavier general use—everyday dresses avoid crepe for fall. These models are not ing extremes.

### DID YOU KNOW THAT—

It is predicted that, in the coming season, women will wear many different accessories with the same gowns as a frugal plan to appear variously attired without great cost.

Bodices for fall are often closed on the side, and necklines are designed to harmonize with these oblique effects. The higher neckline is apparent, sometimes in tie-effects.

There is a decided tendency to drape turbans deep at the sides and back as well as forward in front. This line is flattering, and as the felt and soles are as soft as fabrics, and the hats unlined, the question of comfort, which has become a synonym with millinery for the American woman, is not overlooked.

### Button Up Your Collar

New York—Coat collars, in the advance autumn models are designed to be adjusted in several ways, but the circular movement persists. The body of many a coat and jacket insists on following the curve of the throat with little cravats of fabric or with buttoned-up closings making the round line dominant. These round collars are remarked on for as well as cloth coats, and the round movement has already been discussed in relation to other fashions, notably hats.

**Nominated "Will Rogers" For Congress**

Oklahoma City, July 27 (AP).—A flood of votes today had nominated a comparatively unknown country school master—Will Rogers—to make the Democratic race for Oklahoma congressman-at-large.

Rogers amazed political observers by surging more than 100,000 votes ahead of Mrs. Mabel Bassett, popular state commissioner of charities, in the tabulation of returns from yesterday's run-off primary.

Elmer Thomas, the state's senior United States senator, known for his leadership of the oil tariff and soldier's bonus legislative fights, won Democratic renomination. He defeated Gomer Smith, Oklahoma City lawyer, who made a vigorous campaign.

Will Franklin, Ardmore oil man and generalissimo of the oil tariff movement, had a comfortable lead for the Republican nomination to oppose Gomer Smith in the November election.

Additional vote counting, however, appeared necessary to establish definitely the outcome of Franklin's contest with James A. (Big Jim) Harris of Wagoner and Tulsa, state Republican chieftain of a few years ago.

Governor William H. (Alfalfa) Bill's "ray" selections were victorious in three State Senate races. Nat Taylor, San Carmack and Louis Wischil, for whom the governor campaigned personally, won out over anti-Murray candidates.

Returns from contests for the state House of Representatives, in which Murray did not active campaigning, indicated his "sheep" had broken about even with candidates he labeled as "goats."

Prof. William S. Webb, head of the department of archeology of the University of Kentucky, announcing that bones were found imbedded in onyx below more than 100 feet of limestone, said "formation of a deposit of onyx like that takes tens of thousands of years."

Professor Webb will lead a party which will extensively explore the cave after he returns from Hickman, Ky., where he has gone to supervise excavations in an Indian burial ground.

Skulls of human beings were found in the same strata with animal bones five feet long and eight inches in diameter. Professor Webb said he expected to find bones of the sabre-toothed tiger, the Arctic fox and the polar bear.

The cave of bones, described as "a find of vast importance to the scientific world," is in the Kentucky region which includes the famed Mammoth Cave, soon to be a national park, and Sand Cave, in which Floyd Collins died in 1924 after being imprisoned by a boulder for almost a month.

**Optimistic Pageant Held for Shriners**

San Francisco, July 27 (AP).—The Shrine's pageantry of "National Optimism" swept today toward a second day climax which will weld merriment and business in a "Mardi Gras of Industry."

In the Mardi Gras tonight Industries and civic life of San Francisco will be depicted for the Nobles of the Mystic Shrine in grotesque and educational floats and figures.

While the majority of the 250,000 visitors to the convention are devoting themselves to the practice of optimism, the Imperial Council will meet behind closed doors to conduct the more serious business of the three-day convention.

Earl C. Mills of Des Moines, Iowa, in accordance with custom, is to be selected for elevation from Deputy Imperial Potentate to Imperial Potentate, succeeding Thomas J. Houston of Chicago.

The question of holding Shrine conventions triennially, instead of annually, also is to be decided today and perhaps the Imperial Council will decide on the next convention city. Boston, Mass., already has put in a bid.

This morning the United States army and navy air forces executed maneuvers and battle formations over the city. Chinatown was on full parade with street demonstrations. Oriental music and merry making.

**LITTLE GIRL LOSTS HER FINGER AT ROXBURY**

Roxbury, July 25. (Special).—Tragedy greeted one of the fresh air children starting at the home of Miss Zena Travis when the girl's hand was caught in a pulley drawing hay into the hay mow and three fingers were badly crushed. It was found necessary to amputate the finger next to the little finger and the operation was performed at the home of Mrs. Susan Munsell.

Grief

People will tend to grieve more than they really do, and that takes them from their true grief.—Swift.

OUTDOOR AND CONCERT  
**ST. MARY'S SCHOOL YARD**  
 Music by St. Mary's Orchestra  
 Admission 50c  
 In event of rain dance will be held in school hall

**"Ghost" Crooner Sings In Cemetery**

Joliet, Ill., July 27 (AP).—A graveyard singer is playing to a packed cemetery, but whether he gets anything for his trouble no one knows. No one has seen him, but his tenor voice, described as high-pitched and clear, is attracting hundreds of persons to the Pottery Field in which are buried the convicts who died in the Illinois state penitentiary.

At midnight, or after, the singer begins chanting in Latin. Crowds of curious have been staying up all night to see what it's all about. Some of them have hurried to the section of the graveyard from which the voice seemed to come, only to hear the chant die away.

A majority of the persons who have been listening believe the singing is the work of some fanatic who is enjoying a hoax. Superstitious recall that murderers executed in the state prison lie buried in the graveyard. There are other persons who say they believe a phonograph is being used.

The graveyard songster's work was first heard by a fisherman. His story was that a voice asked him if he had "had any luck" as he walked through the cemetery at night. He didn't stop to answer, but hurried away with details of how the voice, after asking him the question, began a song in a strange language.

Meanwhile skeptical prison officials are checking up on trustees to see if any of them have a flare for music that's sung in Latin.

**Birthday Schedule For President**

Washington, July 27 (AP).—Probably the easiest of President Hoover's jobs is remembering the birthday or national fête day of every fellow president, king or emperor in the world.

As a matter of fact it's a system—set up just to jog his memory to avoid the breach of international etiquette that would ensue if no telegram of congratulation were dispatched on such a day.

In the state department, what might be called a "birthday book" is kept in the hands of a ceremonial officer, skilled in the correct phraseology of international felicitations.

It is the job of this officer—Charles Lee Cook—to inform the White House of which birthday and independence day is which and to see that the President's messages don't get into the error of repeating themselves year and year.

Drafting messages is comparatively easy as almost without exception they are brief. Last Saturday, for instance, "His Imperial Majesty, Haile Selassie I, Emperor of Ethiopia," enjoyed a birthday and the following message was awaiting him when he awoke in Addis Ababa:

"Permit me to extend to Your Majesty on this birthday anniversary cordial congratulations of the government and people of the United States and my own personal greetings. Herbert Hoover."

**Got 26 Days.**  
 Edward Ware, 19, of Woodstock, who was out on bail following his indictment by the grand jury on a charge of unlawful entry, was arrested before Justice Wallace Shultz of Woodstock Tuesday on a petit larceny charge. The justice gave him 30 days in the Ulster county jail. Ware had been arrested by Troopers Coone and Flanagan on a charge of having stolen a ring.

**Error in Name.**  
 In the dress sale advertisement of R. Rosenthal Holstein of 317 Wall street which appeared in Tuesday evening's Freeman through an error the name appeared as R. Rosenthal Halsein. This error in the spelling of the name of the proprietor however did not detract from the exceptional bargains which were offered at the dress store which is located upstairs over the Woolworth and is next store on Wall street.

#### Depression Remedies

Bank Clerk—So you wish to open a joint account with your husband. What kind, please?  
June Bride—Oh, just a deposit account for him—checking for me.

It has been remarked that not all of the presidents of this country were born in a log cabin, but every one of them was born a barefoot boy.

Jonsey—Tell me, old man, who wears the trousers at your house?  
Smitty (depression victim)—Well, I'm wearing them today.

Angus—What makes you sleep so much, Sandy?  
Sandy—I sleep so I won't be idle. I always like to have something to do.

The man who used to cry: "Down With Everything!" ought to get a lot of satisfaction out of present day prices.

The teacher was testing the knowledge of the kindergarten class. Slapping a half dollar on the desk, she said sharply:  
Teacher—What is that?  
Childish Voice (from the back row)—Tails.

Many persons are halted in their progress by a vain desire to start each new venture in a grand manner.

Unremarkable Remarks:  
If we are not hopeful, we are not likely to be helpful.  
It is de-pressure man that knocks the eye out of depression.  
Be careful about what you are, and what you do will take care of itself.

Commuter—I found this dozen eggs on the train.  
Station Agent—If they're not claimed in 30 days, they're yours.

One love affair is hopelessly old-fashioned, confides a well-known young man. Some girls have solved the problem by taking the keys to their heart and having duplicate sets made up.

Ebenezer—Oh, she's not so old as all that!  
Eupremia (his wife)—Old! Why that woman remembers the Big Dipper when it was just a drinking cup.

A British scientist predicts that in time to come men will be born toothless. We thought, in our ignorance, that they usually were born that way.

Vacation days are here. The children are out of school and mother is out of luck.

"After all, what's in a name?" said the rat skin, as it saw it itself in the store mirror labeled "Mesopotamian Seal."

Verbal Sparks: So live that you won't shudder every time a taxi driver drops your grip. . . . Telling a hair-raising story to a bald-headed man is love's labor lost. . . . It used to be wine, women, and song, but

#### GAS BUGGIES—It Depends on Where You Sit.

#### Flashes of Life Sketched in Brief

(By The Associated Press)

Flagstaff, Ariz. Billy John, a Navajo, will spend from five to seven years in prison for wanting to "see what would happen" if he piled stone on the railroad track. It wasn't worth it. The train hit the stone, but no one was hurt and the train wasn't even wrecked.

Morrison, Ill.—They held Glenn Graddock, bank cashier, in jail for an hour yesterday because he offered a silver dollar in payment for gasoline. The filling station attendant never had seen a silver dollar and thought he was being sicked.

Pittsburgh—Mrs. Gillette, dying,

begged in delirium to take her five-year-old son, Johnnie, with her in death. Doctors sent the lad out to play. He wandered over to the railroad tracks. His mother, still alive, continues to beg that "Johnnie go with me". But Johnnie cannot. He has gone on ahead.

Denver—From the wage earner's standpoint, Colorado has the right idea. All state employees receiving less than \$125 a month are to get pay increases at the rate of \$5 a year until their checks amount to \$125 each. The pay increase affects 200 employees.

Kansas City—Daniel Boone always liked to have his trusty gun along when he went out at night. Daniel Boone, Jr., should have followed his great-great grandfather's precaution. The grandson, head of an insurance company, fell afoul a highwayman

and was relieved of jewelry and cash. Boone didn't have a gun.

San Francisco—Prince M. R. Chakratong Tong-Yai, cousin of the king of Siam, doesn't want to be called "Prince". Arriving to study at Cornell, he explained he wanted to be democratic. "I don't like to be burdened," he said, "with a title."

#### ST. REMY

St. Remy, July 27—The annual fair and supper will be held the second of November.

Paul Pekin is at the Y. M. C. A. camp for two weeks.

Most of the farmers have finished harvest. The weather has been favorable, but rain is badly needed as gardens are drying up.

Mrs. Margaret Ryan has recently painted her house.

The annual meeting of the St. Remy Cemetery Association will be

held in the Sunday school room of the church on Monday evening, August 1, at 8 o'clock.

Mr. and Mrs. Alfred Kelley of Cleveland are guests of Mrs. H. A. Kelley at the mansion.

Mr. and Mrs. Otto Ruke and W. Minard of Kingston, Mr. and Mrs. Ellsworth Rose of Elmford and Mr. and Mrs. Wallace Miller of Port Ewen called at the Ellsworth home Sunday afternoon.

Congratulations are extended the newly wedded couple of our village for a prosperous and happy life. S.

Idols' Feelings Safeguarded

When stone-cutting plants in China ship large religious statues in open freight cars, red paper is pasted over the eyes of the idols so they will not see anything which might contaminate them while in transit. — Collier's Weekly.

# OLD GOLD Challenges

THE OTHER THREE LEADING BRANDS TO THIS  
SCIENTIFIC TEST OF CIGARETTE QUALITY

You three old-time cigarette brands are very proud of your cigarettes. You have a right to be! Your cigarettes are mighty good.

Each of you, quite naturally, thinks his cigarette is best. You say: "MY cigarette is *Milder!*" "*It's Fresher!*" "*Kinder!*" And so on.

But don't you think you might give Mr. and Mrs. John K. Smoker a little *proof*?

OLD GOLD begs to suggest that you have any of the great technical universities test your cigarette against OLD GOLD . . . for heat content . . . using the Calorimeter method approved by scientists throughout the world.

Coolness, as you veterans know, is a clue to cigarette quality. It indicates the choicest, purest tobacco. So how about a little cool test?

Maybe you suspect that we *know* OLD GOLD will win. We don't deny it. This "cool" test\* of 4 leading brands has already been made 75 times . . . and OLD GOLD won consistently.

Old Man Science plays no favorites. It's merit that counts with him. He has found the finer and purer tobacco quality of OLD GOLD, just as he tells the purity of pure gold!

NOT A COUGH IN A CARLOAD

#### \*The Verdict of Science

This is to certify that in 75 repeated cool tests made of the 4 leading cigarette brands . . . measuring the heat content of each cigarette in B. T. U.'s with the Oxygen Bomb Calorimeter, it was shown that:

Old Gold averages 112 B.T.U's. Cooler than Brand X  
Old Gold averages 155 B.T.U's. Cooler than Brand Y  
Old Gold averages 156 B.T.U's. Cooler than Brand Z

Tests of the heat of the smoke showed Old Gold smoke definitely cooler than that of the other brands.

(Signed) NEW YORK TESTING LABORATORIES  
G. Bristol Jack, Jr., Director

NOTE: These tests were checked and verified by the scientists of two leading universities. Their signed reports will be sent on application to P. Lorillard Company, Inc., 119 West 60th Street, New York City.

## Mystery Play at Maverick Theatre

Three new personalities will be introduced to patrons of the Maverick Theatre, Woodstock, Thursday evening when the Maverick Players present the premiere of the thrilling mystery play by Carl Newing "The Quick and the Dead."

The outstanding personality is that of Miss Kathleen Chase who will have an important role in "The Quick and the Dead." Miss Chase has just returned to the United States after three seasons in London and Paris where she played in a series of mystery plays sponsored by Sir Gerald Du Maurier. She played leads in the French productions of "Poli de Cavotte," "La Grande Duchesse et Le Valet de Chambre," "Milestones," "Take Two From One" with Gertrude Lawrence, also "Passing Through Lorraine" with the Kew Theatre Players.

Also there will be Charles Coghlan of the famous Coghlan family, he being a nephew of the famous Rose Coghlan and the equally famous Charles Coghlan. The third newcomer is Robert Elwyn, a Woodstock resident who will be making his first professional stage appearance in his home town.

"The Quick and the Dead" will be directed by Arthur Bond, a specialist in the direction of mystery plays. The author is Carl Newing who has introduced some extraordinary and thrilling events into his play which will be enacted without the aid of any mechanical devices.

Other Maverick favorites in the cast include George MacQuarrie, Farrell Pelly, Irene Shirley, Dortha Duckworth, Catherine Proctor, Everett Ripley, William Post, Jr., and Edward Grady. The play will be presented on the evenings of Thursday, Friday, Saturday and Sunday, the curtain rising at 8:45 o'clock.

## New York Peaches Should Sell Well

Ithaca, N. Y., July 27.—The United States peach crop is expected to be about thirty-eight per cent less than the large crop of 1931. New York state estimates are for fourteen per cent, or 257,000 bushels less than last year, but it will approximate a normal crop, according to Professor M. P. Rasmussen, of the State College of Agriculture.

Ohio is expected to have fifty-seven per cent, or 1,300,000 bushels, less than last year, and the decrease in New Jersey, Pennsylvania and Michigan account for 1,500,000 more bushels. Illinois and Virginia estimates are reduced from six million bushels for last year to 600,000 bushels for 1932. Early peach districts have suffered similar drastic decreases, he says. Georgia, Alabama, Texas, North Carolina, Arkansas and South Carolina grew 20,000,000 bushels in 1931, but are expected to grow 5,000,000 bushels in 1932. In the far-western states, where the peach canning industry is important, the 1932 crop is expected to be 3,300,000 bushels, or thirteen per cent, greater than last year.

The 1932 pear crop is expected to be 21,500,000 bushels compared to 23,300,000 bushels last year, a decrease of about eight per cent. New York state is expected to have about 1,724,000 bushels compared to 800,000 bushels last year, an increase of about 116 per cent. Michigan is the only other eastern state to report an increase, with thirty-eight per cent, or 669,000 bushels.

## New Boiler Placed In Post Office

Fred M. Dressel, of No. 73 Albany avenue, has completed the installation of a new single pass, smokeless, steel heating boiler in the United States post office building on Broadway. Four Kingston concerns submitted bids for the work. Mr. Dressel was the lowest bidder. The new boiler was given its final inspection and test by a United States treasury department inspector several days ago.

The oil boiler at the post office had been in use since the building was erected in 1908. Application for a new heating boiler was made early last spring by Postmaster Edward L. Merritt, who is custodian of the building. In May the old boiler was inspected and condemned. In order to get the new boiler into the basement it was necessary to excavate extensively on the Prince street side of the building. The new boiler was then lowered into the excavation and entered into the building through the largest and most convenient window, as indicated in the plans and specifications. The old boiler was much larger than the window and could not be removed from the building until it had been cut into several sections. All gratings, railings, area walls and coping were then carefully replaced.

Gargle One of heretofore's failures is that it still takes six months of instruction, off and on, to teach the succeeding generation how to gargle.—Detroit News.

## MILTON

Monday, July 26.—Many of the fruit growers who attended the Elverhøj County Fair, Bureau fruit tour last August, are anxious to know about the coming fruit tour.

Annual the Elverhøj County Fair Bureau will schedule the fruit tour some time after the fifteenth of August. The full details have not been worked out as yet. The tour will begin in Marlborough and probably end at Port Ewen. There will be five or six stops, with a picnic dinner in some convenient orchard. Everyone is invited to attend.

The Ladies' Needlecraft Society of the Milton Presbyterian Church held their annual fair and cafeteria supper Friday afternoon and evening. On account of the storm during the afternoon the fair and supper was held in the home of Mrs. Birdsell Taber instead of on the lawn as had been planned. The fair and supper was a success and there was a very good attendance.

The summer meeting of the New York Horticultural Society will be held in Geneva, Thursday, July 28. Walter Clarke of Milton, president, will attend, also others as follows from Milton: Miss Lulu Clarke, James Clarke, C. J. Hepworth, George Hildebrand of the Hudson River Fruit Exchange and Peter McManus and several others.

Town Highway Superintendent P. V. Bunker, has finished repairing the old state road through the village and north of it and has been devoting some attention to Brewster street. This street has been in need of repairing for several years. It has now been put in a splendid condition for travel. If a sidewalk was laid on either side of the street it would be a great improvement.

A meeting of the Ladies' Aid Society of the Methodist Church was held Friday afternoon at the home of Mrs. H. A. Walker. At the meeting final plans for the annual fair and supper July 29, were completed.

A number of interested buyers are being attracted to the Elverhøj galleries by the sale of art pieces advertised last week Wednesday. A few came to examine the offerings on Thursday. A number of good sales have been made.

An emergency dance was held Saturday evening in St. James Hall by the Milton Fire Department. There was a large attendance. Ward Harrison's orchestra of Newburgh furnished music for the dancing.

Sunday afternoon, August 1, services will be held in the Friends Church at 4 o'clock. The Rev. Russell Branson will have charge of the services.

Mrs. Grover Ferguson and her niece, Miss Josephine Nelson, returned last Thursday from a four day visit at the home of Mrs. E. F. Hankin.

Mrs. Westervelt Clarke was among the guests of Mrs. J. J. Enlist of Highland at a bridge luncheon on Wednesday.

Guests this week of Mr. and Mrs. Birdsell Taber are Mrs. Taber's sister and niece, Mrs. Charles Morse and daughter, Cornelia, a Cornell University Junior of Ithaca, another sister, Miss Mary Davis of Auburn and three younger girls, Jean Davis of Canastota and Francis and Mary Davis of Union Springs.

The Rev. Edith Dewey, a former pastor of the Milton Methodist church, is supplying during the summer months in the Methodist Church in Hancock.

The Rev. and Mrs. H. Mather visited friends at White Lake the past week.

Kenneth Taber, Russell Hallock and nephews, Jack and Robert Wilke, returned Wednesday from a motor trip to Lake Champlain.

Norma Donaldson has been visiting her aunt, Mrs. George Wilson, at her home in Phoenix.

Mrs. Marsa Smith returned to her

## A new TYPE and KIND of Automobile

Two brothers named Wright flew a power-kite off the bleak sands of Kitty Hawk, and gave to the world the airplane. Genius and daring, seeking new thrills, added hulls and keels to winged motors—and gave us hydroplane.

Today, the earthbound automobile takes on phantom wings—and you have the TERRAPLANE!

Not only a new model but a new kind of automobile, it springs full-powered from the independent, daring, Hudson-Exxon engineering that has contributed more than 60 "firsts" to automotive progress.

Because it skims the roadways of old terra firma with a fresh, smooth, soaring action akin to flight, Amelia Earhart christened it the TERRAPLANE.

Its new engineering principle is pneumounted power—power set free—with the highest ratio of power to weight ever achieved in a production car here or abroad. Its unit body-and-chassis construction is the first achievement of complete structural entity in any car.

In performance it out-starts, out-climbs, out-runs, out-curves and out-stays cars three times its weight and ten times its price.

### Models and Prices

Standard Series: Roadster \$425; Business Coupe \$470; Rumble Coupe \$510; Coach \$475; 5-passenger Sedan \$550  
Special Series: Sport Roadster \$525; Business Coupe \$510; Rumble Coupe \$550; Convertible Coupe \$610; Coach \$515; 5

## Gorguloff Says He Wants To Die Of 3 Commissioners

Paris, July 27 (AP).—Paul Gorguloff, whose hysterical outbursts have been frequent during his trial for the assassination of President Paul Doumer, screamed again today that he wanted to die on the guillotine.

His attorney asked that the court permit the jury to decide on the defendant's sanity. The prosecution objected, asserting that the jury should determine only two questions—whether Gorguloff killed the president and whether the crime was premeditated.

It was then that the Russian leaped to his feet.

"Take my life," he cried, "lay me on the guillotine. The French government has killed my ideal and my party. I am a living corpse. I do not want to live."

### Celebrates 81st Birthday

Saratoga Springs, N. Y., July 27 (AP).—George Foster Peabody, wealthy philanthropist and veteran political observer, will celebrate his 81st birthday today. He said he felt "obligated to devote his present health and strength to the political campaign now under way."

## Seek Agitator Who Planned a Revolt By Closing Banks

Pontiac, Mich., July 27 (AP).—State police sent out orders today for the arrest of George Rowland on a charge that he acted as the Detroit agent of a radical group which planned a social revolution by the circulation of rumors attacking a number of large banks in the country. The officers said that a raid on Rowland's hotel room here yesterday revealed the ramifications of the plot.

Capt. Ira H. Marmon, of the state police, who led the raid on his room in the Roosevelt Hotel yesterday, said that letters and telegrams seized there established that Rowland had directed the circulation of rumors against banks in Illinois, Indiana, Ohio and Michigan and that he had been instrumental in attacks against the First National Bank here.

After Rowland's room was entered and documents seized, Capt. Marmon gave orders for the arrest of the man but he did not return to the hotel. Marmon believes he was warned by a confederate and fled.

Marmon said that the letters showed that Rowland was one of several regional directors of attacks against banks and that a number of subordinates were working under his direction in the middle west, particularly in Chicago and Cleveland.

Telephone conversations from Rowland's hotel room, which were tapped by detectives, Marmon said, showed the method of operation of the ring. Agents of the ring, going into a new city, secured the names of prominent business men from the city directory, called them by telephone and warned them that the banks in which their money was deposited were in unsound condition. Some of the calls were made from pay stations, the state police captain said, so that they could not be traced. The receipt of a number of such calls were reported to the officers by men to whom they were made.

Found Motor Truck  
Dan Hodley was the last witness called before the noon recess. He said in 1932 he had gone to the Mollenhauer property to buy hay for Ferguson who was at Lawrenceville. He went over the road in question on horseback. It was a wagon road then with no obstruction. He bought hay from Sheeley at the time. About eight years ago he went to the Mollenhauer property to blast rock. There was no obstruction then. He also attended the picnic in 1930 and 1931 on the Mollenhauer property. In 1931 when the Grange held its picnic there was a motor truck parked on the road and they had to drive around it.

A recess was taken until 2 o'clock.

Market for Fruits  
And Vegetables

New York, July 27 (AP).—(State Department of Agriculture and Markets)—Hudson valley early variety pears are arriving sparingly. Demand was limited and jobbing sales on Clapp's Favorite variety were at \$1.50-\$2.00 per bushel. Belle pears, \$1.25-\$1.50. Sugar \$1.50-\$1.75.

New Jersey, Delaware & Maryland apples were in generous supply. Demand was light and the market ruled weak, particularly on fair and ordinary quality as well as medium to small size stock. A large volume of apples at 50c-\$1.00 per bushel.

Upstate Big Boston lettuce was slow. Grades wholesaled at 35c-50c. Some good quality commanded 60c-65c while poorer sold as low as 25c.

Upstate green peas were slightly weaker. Wholesale transactions were chiefly at \$1.00-\$1.25 per bushel. Some fancy large reached \$1.50 while small and poorer brought around 75c.

Orange county celery was in fair supply and prices eased. The best price was \$1.50 for two-thirds crate.

Fruits.  
Apples—Hudson valley bu. basket, early varieties and colors, various grades and sizes, 50c-\$1.25, mostly 75c-81c.

Blackberries—Hudson valley, quart basket, fancy large 14-16; small 10-12; poorer 8-9.

Black caps—Hudson valley and western New York, pint basket, best 8-11, poorer as low as 5.

Cherries—Hudson valley, sour varieties, four-quart climax basket, red, best, 18-22 1/2; mostly 20, few small lots fancy large higher, small and poorer, 15-17 1/2; black, 20-30, small and poorer, 18. Twelve-quart climax basket, black, 60-85; red, 40-60. Quart basket, black, 5-8; red, 4-8.

Currents—Hudson valley, quart basket, red, 6-8, poorer 4-5; black, 30-35, poorer 25.

Gooseberries—Hudson valley, quart basket, large 14-16, medium to small, 10-12, poorer as low as 8.

Pears—Hudson valley, bushel basket, Belle, \$1.25-\$1.50; small, 75c-81c. Clapp's Favorite, \$1.50-\$2.25, small, \$1.51-\$1.75. Sugar, \$1.50-\$2.25.

Raspberries—Hudson valley, pint basket, red, best, 10-12 1/2, few lots fancy large, 13-15; fair to ordinary, 9-9.

All Colors in Sunlight  
Sunlight is white light composed of all colors of the spectrum.

DIED  
LAUREN—In this city, July 27, 1932, Henry F. Lauren.  
Funeral at the chapel of A. Carr & Son, No. 1 Pearl street, on Friday at 10 a. m. Relatives and friends are invited. Interment at Stamford, New York.

TREMPER—Entered into rest, Tuesday, July 26, 1932, Walter Louis Tremper, son of the late Harry A. and Anna Doremas Tremper, and loving brother of Mrs. Eugene Livingston, Harry A. Tremper, Jr., and the late Edmund Tremper.  
Relatives and friends are invited to attend the funeral from the home of his sister at No. 134 Highland avenue, Thursday afternoon at 2:30. Interment in the family plot in Montrose Cemetery. Friends may call this evening from 7 to 9 o'clock.

## Democrats Holding Hoover Responsible For New Relief Law

Washington, July 27 (AP).—President Hoover, says the House Democratic leader, "can't dodge" responsibility for the new relief law although he has selected a majority of Democrats to run the Reconstruction Finance Corporation.

That was the way Representative Rainey of Illinois summed up his reaction to the White House announcement that Astor Pomerene, former Democratic senator from Ohio, had been chosen for one of the two remaining places on the corporation's directorate.

The appointment gave Democrats four directors and designation of a Republican for the last post will bring their number to three.

Rainey said Pomerene was a "man of unquestioned ability" but added: "There isn't any question about responsibility for the existing relief law. The President has had his own way about the kind of relief we should have. If it fails, the responsibility will be his. He can't dodge it. He vetoed the Garner relief bill."

Pomerene, the President said, will be elected chairman of the \$2,500,000 corporation's board which now lines up like this: Democrats, Pomerene, Harvey Couch of Pine Bluffs, Arkansas, Jesse Jones of Houston, Texas, and Wilson McCarthy of Salt Lake City; Republicans, Secretary Mills of the Treasury and Gardner Cowles, Sr., of Des Moines, Iowa. The law specifies the party division must be four and three, so a member of the G. O. P. must be picked for the last vacancy.

As Pomerene's appointment was announced, the Agriculture Department finished its plans for handling a \$10,000,000 fund to help finance agricultural credit corporations and livestock loan companies.

### News of Today In Kingston

Traffic is atrocious.  
It's bad, not alone from the way the cars are driven, but also because of the number of cars that are being driven in a most careless manner. On traveling over a three strip concrete road, one can readily draw the conclusion that three strips are more dangerous than two. The reason is plain. Middle strips on these highways are used for passing by cars, both north and south bound and many narrow escapes have been chalked up because of this arrangement. No two cars have been known to meet head on in this middle lane, but that's bound to come.

Plans have been revealed by people dreaming of the future, where there will be two separate roads. That is, two roads of two strips of concrete each, separated by a low wall of a narrow grass plot with trees in it. The traffic would be divided and all danger of conflict of cars traveling in opposite directions would be eliminated. Of course, a road like this would involve four strips. It would mean added expense but we could use the gasoline tax for that purpose.

One of the main reasons why immigration was stopped was because foreigners were working for less money than the Americans, therefore putting the American laborer out of a job.

There was a way of stopping this evil but there is a way of stopping this new one. All over the country there is a moan from the working classes because they're losing their jobs to none less than the "college students." Our educated young men are looking for work and they're not particular either, so they accept jobs at lower wages than the men already holding them and the job is theirs.

They say that education is a means of raising the standards of a nation but this doesn't look like it. Lowering wages brings down the living conditions.

These jobs with the small salaries that are being held by the college student won't last long. So cheer up you men who have lost your jobs. You'll get them back shortly.

The fights were a success. Seven hundred is a good crowd in that little arena, and because they drew that many another card will be staged on August 5, Friday night.

There were on-lookers from the outside and they got on perches out of the reach of the police. These "chiselers" climbed into trees and stood on the porches and roofs of the surrounding buildings.

Next time they'll be watching the fights from airplanes.

Boy Scout Camp  
Draws To Close  
The Boy Scout camp near Cairo, which this week reached high water mark with a registration of 71, of which number 59 are Scouts, will close for the season on Saturday afternoon at 2 o'clock.

Tuesday 49 of the Scouts, in charge of Camp Director Cahill, left for an over-night hike up Blackhead camp this noon.

Friday night the closing camp fire will be held at which time the boys will sing their songs, do their stunts and at the court of honor which is to follow receive the various emblems they have won and be awarded advancement in Scout work. This affair is open to the public and is to start at 8:15.

Two Girls Killed  
Buffalo, N. Y., July 27 (AP).—Two young girls, both five years old, were victims of unusual accidents which resulted in their deaths yesterday. Gertrude Litko tripped while carrying a milk bottle, pieces of glass driving deep into her body near the heart. Dorothy Lipowski was hit in the head by a batted baseball, fracturing her skull.

## Living Music Day To Be Celebrated

Living Music Day, a comparative new movement, promoted by the American Federation of Musicians, and which has already been observed in some 78 communities throughout the country, will be observed in Kingston on Tuesday, August 16, the day preceding Dollar Day.

The more in Kingston is being sponsored by the Kingston Musicians Union and the Uptown Business Men's Association.

Details of the proposed observance of Living Music Day have not yet been completed but it is understood the plan is to have at least three hand concerts in different parts of the city on that day and in addition orchestras will play in different stores in the city.

The committee from the Musicians Union which is perfecting plans for the day is composed of: Paul Zucca, chairman, John Ernie, Sal Castiglione, Fred Fahrlich, Henry Hill, George Muller.

### Governors Ely And Roosevelt Meet

Albany, N. Y., July 27 (AP).—Governor Roosevelt's luncheon table at Albany was the setting today for his widely heralded meeting with Alfred E. Smith's New England friend and ally, Governor Joseph B. Ely, of Massachusetts.

By automobile through the Berkshire mountains, the Bay State executive hastened to the meeting out of which Roosevelt's campaign captains hoped would come Ely's endorsement of the New York governor's campaign for president. Although Ely, after a long silence on the subject of the Democratic national ticket, agreed to meet Mr. Roosevelt at Albany, he has not yet said he would support the Roosevelt-Garner combination.

### Crowd Sees Taiclets Decisively Trim The West Shore Team, 12-3

Despite rumors that there would be no City League game at the Athletic Field Tuesday evening the West Shore Railroaders and the Taiclets Boxmen met and a good crowd witnessed the game. The Boxmen won the game by a score of 12-3 and strengthened their chance of winning the first half of the league.

Nick Huber, winning pitcher, yielded but three hits and at no time was in trouble. "Boots" Leski was the only batter who could do much with his bat, hitting for a triple and a single. Ralph Williams got the other hit.

Johnny Murphy did the hurting for the Railroaders and was hit hard throughout. Each one of the Boxmen with the exception of Huber, made at least one hit. Schwab was the leading hitter, pulling three hits out of three official trips to the plate. Cragan, generated two doubles and a single out of four tries. Carr also hit three safeties.

Ralph Williams' double paved the way for the first run of the game and gave the Railroaders the lead for a brief spell. He registered on two infield outs.

The Boxmen took the lead in their half of the first inning and practically won the game in this inning. Singles by Moore, Schwab and Carr and doubles by Cragan and Regan, interspersed with a hit batsman and an error netted them six runs.

The second inning saw the Boxmen score two more runs. In the fourth inning they added two more and repeated with two in the fifth inning.

The Railroaders managed to push two runners across the platter in the last inning in a rally that was climaxed by Leski's triple.

The score:

Schryvers	4	4	.500
Northern Neckwear	1	7	.125

**Game Tonight**  
The Knights of Columbus, runners-up in the league, and the Schryver Lumbermen will meet at the Athletic Field this evening. Art Wood is expected to hurl for the Casseys with Clarke behind the bat. The Lumbermen can call upon Wilson, North or Hornbeck for pitching duty with Rider behind the plate.

### CITY LEAGUE MANAGERS AND OFFICERS MEET THURSDAY NIGHT

The managers and officers of the Kingston City Baseball League will hold a special meeting at the city hall Thursday evening. Matters of importance will be brought up and the opening of the second half will be discussed.

### Yesterday's STARS

(By The Associated Press.)

Dick Grace, Pirates—His single with two out in the tenth inning defeated the Giants, 7 to 5.

Pat Malone, Cubs—Set the Braves down with five hits.

Pinky Whitney, Phils—Drove in four runs with a double and home run to help beat the Reds.

Tony Cacciatello, Dodgers—His five hits brought in four runs in double win over the Cardinals.

Johnny Welch, Red Sox—Pitching his first game for the Sox, beat Chicago, 9 to 1, and hit a double and two singles.

George Blaholder, Browns—Beat the Senators, 2 to 1, and knocked across the winning run.

### Brown's Busy Body

### Poughkeepsie All Stars To Play Colonials Aug. 5

Herbie Myers, co-manager with "Kid" Moore of the Kingston Colonials, this morning announced that the locals would play Freddie Dah's Poughkeepsie All Stars at the Athletic Field on Friday evening, August 5, starting at 6:15 o'clock.

Anticipations are that there will be a record crowd at the game which will feature the best baseball talent of the Bridge City against the Colonials, who will take the field with a revised lineup.

According to Myers the roster of the Colonials for the twilight diamond war will be Dick Williams, Dewey Van Buren and Hank Cragan, pitchers; Joe Dulin, catcher; Paul Joyce, 1b.; "Kid" Moore, 2b.; Cap-

tain Bib Sickler, ss.; Harold "Jimmy" Johnson, 3b.; Bill Schwab, rf.; Leo Fitzgerald, c., and "Lefty" Williams, lf.

The same combination, playing under the Colonial banner, will travel to Athens Sunday afternoon to play the Laundrymen of that village, who will have City Judge Bernard A. Culliton of Kingston as their pitcher. So far this season he has not lost a game and contemplations adding the Myersmen to his list of vanquished baseball opponents.

Eager to fortify themselves for the attack of the Dahmen a week from this Friday, the Colonials hope to take the starch out of the Laundrymen and by so doing send their friend, the judge, down to defeat for the first time this summer.

### Tagging Major League Bases

(By The Associated Press)

The Phillies, starting another extended home stand, are likely to supply the big news of the next few weeks in the National League.

As a sort of storm warning to their rivals, it may be pointed out that this club has found itself and is coming along. In a virtual tie for third place today it probably will be higher when Klein, Hurst, Whitney and Bartlett get through with a few dozen visiting pitchers.

When they opened their last home stand against the west almost two months ago, the Phils were in seventh place. Since then, with valuable assistance from Flint Rhem, they have won with fair consistency both at home and on the road, and their climb has been slow but sure.

They have won 10 of their last 14 starts, mostly on the road, and they can beat that in their own pasture. That would be a fitting climax to a dizzy race—the Pirates and Phillies fighting it out down the stretch. And it might happen.

**Three Homers.**

A typical assault, which netted eight runs off Owen Carroll's delivery in the first two innings, gave the Phillies a 10 to 5 victory over Cincinnati in yesterday's opener. Klein, Hurst and Whitney each hit a home run, and between them they drove across eight scores.

The Pirates and Giants, inaugurating a "crucial" series of seven games in four days at the Polo Grounds, split a doubleheader. Bill Terry's home run with two aboard helped the Giants take the first, 7 to 3, but the league leaders came back to capture the second, 7 to 5, in 10 innings.

**Brooklyn Wins Twice.**

The Chicago Cubs picked up a half-game on Pittsburgh by trimming the Boston Braves, 7 to 2, behind Pat Malone's fire-hit pitching performance. Brooklyn's surprising Dodgers thumped the St. Louis Cardinals twice, 12 to 6 and 5 to 4.

Two contests survived the rain in the American League, and in one of them the Boston Red Sox turned their newest pitcher, Johnny Welch, loose on the Chicago White Sox for a 6 to 1 victory. Welch, just obtained from Newark but already a veteran as the Sox mound staff is counted these days, held Chicago to nine widely scattered hits and himself belted a double and two singles.

George Blaholder's steady pitching, plus his timely single that scored Levey in the second inning with the winning run, gave the St. Louis Browns a 3 to 2 decision over Washington.

**Apple Legend Widely Spread.**

Races so widely apart as the Jews, Greeks, Scandinavians and Druids have each versions of the story of the apple and its place in the origin of evil.

Reading at Newark (night game).  
Jersey City at Baltimore.  
Montreal at Rochester.  
Toronto at Buffalo.

### First Catchers

The catchers were invented after cork stoppers were made in the days of the Eighteenth century. These first ones were fashioned of metal with a ring at the top, though later the ring became a bar. Its inventor is still a matter for research, since he remains a person shrouded in mystery.

### SPORT SLANTS

By Alan J. Gould  
(Associated Press Sports Editor.)

It may be some time before the last rebuttal is recorded in the east-west tangle over timing methods around the clinder paths.

The controversy broke with a loud blast after the Intercollegiate A. A. A. championships, held at Berkeley, Cal., where the westerners charged that eastern clockers leaned backward by timing Frank Wykoff in 9.9 seconds for the final of the 100 yard dash and "Red" Record in 15 seconds flat for the 120-yard high hurdles final.

Though timing of the eastern veterans, it was claimed by west coast critics, also cheated Bill Carr of even a better record than his 47 seconds for the 440 in which he whipped Ben Eastman.

Hokum? That was my first reaction to all the squabbling, too, but listen to John T. (Terry) McGovern of Cornell, a veteran of these meets, as to the eastern viewpoint:

"Why should we want to take anything away from these boys on the coast who have done so many brilliant things in track and field? So far as the talk of a 'conspiracy' is concerned, it is all the bunk but it is a fact that for a long time, the coast sprinters have been getting off on what we call a 'rolling' or perfect start."

"In other words they knew the starter was going to give them 1-2-3 and the gun. An anticipatory start. If it can be so described, means at least a yard on the getaway in favor of the sprinter."

"Then, at the finish, they have been closing on the moment the tape is touched by any part of the body, whereas it is a definite, clearcut rule in this country as well as England that the runner has not finished and cannot be timed until his entire body is past the finish mark."

"Combine this with the favorable start and it will mean at least one-fifth of a second, on the average in faster time. It's important when you consider that world records can now be broken by a tenth of a second."

### "Rotten in Berkeley."

Now listen to the invalid but nonetheless emphatic Mr. Dink Templeton, Stanford's famous track coach:

"These eastern timers simply showed themselves up when they gave the times they did at Berkeley. They timed Wykoff and Hardy of others in 9.9 for the 100 in the east. They timed Wykoff and Hardy of Cornell in 9.7, caused up, in the semi-finals out here, but in the final, where Wykoff unquestionably ran one of his finest races and decisively beat Hardy as well as Bob Kissel, what was the time? It was 9.9 and if that isn't a laugh I never had one."

Not even the electrical "timing camera," which showed 9.89 seconds for Wykoff's final 100 could convince Mr. Templeton and the other westerners that the clocking wasn't "rotten in Berkeley."

### Keane Cuts In.

To make things all the more congenial, Mr. Thomas Keane of Syracuse, in his day perhaps the greatest of all professional sprinters, publicly proclaimed his own belief that no man can really run the 100 yards in 9.5 seconds, the present listed world record mark.

Forthwith the coast critics jumped all over Mr. Keane, much to his personal enjoyment, and when last seen around the hotel lobbies the battle was still on.

### TWAALSKILL NINE WILL PLAY CARDINALS TONIGHT

This evening at Block Park, Abel street, the Twaalskill baseball team will play the Cardinals, endeavoring to make up for a recent defeat at the hands of the Red Birds. "Duke" Bittner, Twaalskill hurler, will pitch for his team this evening with Koutch or Sahloff receiving. Battery for the Cardinals will be Kozlowski and Stokes. Starting time of the contest is 6:30 o'clock.

### Pre-Game Meetings For Olympics in Three More Days

By PAUL HUMMERMAN

Los Angeles, July 27 (AP)—With most of the world's athletes on hand, including some half and lame, only three days remain for the usual clinical caucuses which will escort the modern Olympiad into its teeth-meeting.

The Ula of international sports, if any, will be ministered to in a series of pre-game meetings starting today, while the ailing athletes call on their medicine men to hasten healing processes.

The succession of conventions which eventually will lead to action on the most question of Paavo Nurmi's status, begins today with a meeting of the rules and records committee of the International Amateur Athletic Federation, and a session of the Federation Internationale D'Ecrite, dealing with fencing.

Against Reinstatement  
Members of the I. A. A. F. council will gather tomorrow, but the problem whether the great suspended Finnish distance runner is to be in the Olympics, probably will not be presented until the eleventh congress of the organization is called to order Friday.

Nurmi also is classed among the growing list of stars who parade through the Olympic village hospital clinic, but his physical troubles, namely a strained Achilles tendon, have failed to attract the worldwide interest manifested over his amateur status.

On the floor of the executive council the vote stands 5 to 2 against reinstatement, but in the Congress session, where the question of reinstating into the rules the power of the I. A. A. F. to suspend any athlete, with Nurmi's test case, the lineup may be different.

### Eastman Better

The belated arrival of Ben Eastman, United States' 440-meter entry brought information from the Stanford star that he feels much better than during the final team trials ten days ago when Bill Carr of Pennsylvania beat him for the second consecutive time.

Eastman, who still has a hacking cough, said, "I weigh a little more now, but I guess I can stand it. I feel much better than I did during the trials."

### Muscle Injuries Handicap

Other stars a bit dubious as to the condition were Reginald Thomas, Great Britain; Sylvio Cator, Haiti; Mikko Oda, Japan; Percy Williams, and Jimmy Ball, Canada; Frederick Kied, Great Britain, and Dr. Paul Martin, Switzerland, all with muscle injuries.

Lord David Burghley, Great Britain, and Joe McCluskey, "Pen" Halliwell and Dan Deon of the United States troupe, have contracted colds.

Williams, spring winner from Vancouver, B. C., in the 1928 games, has been suffering from a slight recurrence of his old leg injury which has bothered him for more than a year.

### No Report From 5 Nations

Five of the expected 23 nations are still unreported, but there was a question whether some of these would appear. Liu Chung Chun, sprinter, China's lone entry, cleared Honolulu Harbor a few days ago. The Cuban athletes probably will not be on hand in time for the parade of the nations Saturday while Spain, Portugal and Luthuania have not been heard from.

### Major League LEADERS

(By The Associated Press)

(Including Tuesday's games)

### National League.

Batting—P. Waner, Pirates, .361;  
Hurst, Phillies, .359.  
Runs—Klein, Phillies, 107; Terry, Giants, 74.  
Runs batted in—Klein, Phillies, 94; Hurst, Phillies, 94.  
Hits—Klein, Phillies, 146; P. Waner, Pirates, 140.  
Doubles—P. Waner, Pirates, 40; Worthington, Braves, 33.  
Triples—Klein, Phillies, 14; Herman, Reds, 14.  
Home runs—Klein, Phillies, 29; Ott, Giants, 19.  
Stolen bases—Frisch, Cardinals, 14; Stripling, Dodgers, and P. Waner, Pirates, 13.  
Pitchers—Swetonie, Pirates, 11-2; Warneke, Cubs, 15-3.

### American League.

Batting—Foxy, Athletics, .365;  
Manush, Senators, .347.  
Runs—Simmons, Athletics, 107; Foxy, Athletics, 101.  
Runs batted in—Foxy, Athletics, 121; Simmons, Athletics, 92.  
Hits—Foxy, Athletics, 137; Porter, Indians, and Simmons, Athletics, 133.  
Doubles—Porter, Indians, 31; R. Johnson, Red Sox, 29.  
Triples—Myer, Senators, 15; Cronin, Senators, 12.  
Home runs—Foxy, Athletics, 40; Ruth, Yankees, 26.  
Stolen bases—Chapman, Yankees, 26; Bile, White Sox, and Walker, Tigers, 14.  
Pitchers—Allen, Yankees, 8-2; Gomez, Yankees, 17-5.

### FIGHTS LAST NIGHT

(By The Associated Press.)

Cleveland—Willie Davies, Charlie, Pa., outpointed Babe Triscaro, Cleveland (6).

Saginaw, Mich.—Buddy Heinz, Saginaw, outpointed Harry English, Toledo (10).

Portland, Me.—Al Rodriguez, California, stopped Dutch Leonard, Boston (9).

### All Stars Bow to Royal Giants, 2-6, Before Slim Turnout

A turnout of fans that failed to come up to the number anticipated, saw the Brooklyn Royals defeat the Kingston All Stars, 6-2, in an eight-inning game at the Kingston Fair Grounds Tuesday evening. Jack Dodge, pitching for the Stars, allowed the Royals 11 hits, two of which were home runs by Jones and McQueen, who whirled for the Brooklynites. Kingston made 10 blows, three of which were bingles by Pres Knight. He got a double, two singles and a free pass to first out of four times at bat.

In the second inning the Royals registered five of their six runs. Burgen, Riggins and Trammell singled in the order given, netting two tallies. Jones reached first on another single, and then McQueen hit his circuit clout, scoring the two men on base and crossing the plate himself for the single team's fifth run. Jones's homer in the eighth ended the scoring with the tally 6-2 in favor of the visitors.

Kingston's two runs came in the fifth stanza. Jack Dodge doubled and made home plate on Knight's single. Then Hoffman, doubled, scoring Knight. Besides the doubles hit by Dodge and Hoffman, Knight and Tiano also scored two-baggers. The All Stars got men on the bases in about every inning but failed to produce hits to send them home.

The box score:

Royal Giants										
	AB.	R.	H.	P.O.	A.	E.				
Brown, 3b.	5	1	1	1	1	0

## Injunction Action To Determine If Road Is Public Continued

Mrs. Margaret Clark of Haines Falls and Poughkeepsie testified Tuesday afternoon that from 1871 until 1902 when she moved from the Sheeley farm in the town of Rosendale she and the members of the family always used the highway which is in dispute over the Ackerman property in the town of Rosendale. She was the first of the former residents of the vicinity of Rosendale called before Supreme Court Judge John T. Loughran in the injunction action which has been brought to determine whether a road leading from the Otto Mollenhauer farm over the Ackerman lands to James street is a public highway. Testimony prior to that of Mrs. Clark was preliminary and tended to prove a map which was offered in evidence. Mr. Mollenhauer, a resident of the farm since 1914, had previously testified to having used the road since he purchased the lands.

**Has 140 Acre Farm.**  
Mollenhauer, a former Bronx resident, is engaged in farming and dairying on the 140 acre farm which lies at the end of a peninsula formed by the junction of the Rondout and Walkkill creeks in the town of Rosendale. He testified that for a period of time he had used a road which he claims is a public highway over the Ackerman property and through James street to Rosendale village. In 1931 however he alleges the road was obstructed first by a truck being parked on the roadway and later by posts. He seeks now to have a permanent injunction granted to restrain Mrs. Ackerman and Alfred Ackerman from closing the road and to recover damages for inconveniences already suffered.

Minutes of the town board of Rosendale were offered to show that in 1914 and in 1916 the board had passed a resolution authorizing the town superintendent to repair the road as a town road.  
Mr. Mollenhauer was called at the afternoon session and testified he had purchased the farm in 1914 and had farmed since that time. He said in 1914 when they came to Rosendale he learned of the road across the creek to the Rock Lock road. His son attempted to cross the ford and the first time he received a ducking and the next time he donned rubber boots and tried to drive through the ford and the water came up in the wagon box as he stood in the wagon and since that time they have not attempted to use the ford.  
It is the contention of the defendant Ackerman that the road in question is not a public road and that the means of entrance to the Mollenhauer property is by way of the Rock Lock road and through a ford in the Rondout creek.

**Road Repaired.**  
Mr. Mollenhauer testified that in 1916 Luther Keator was town superintendent and he scraped and worked the road over the Ackerman lands. In 1918 and 1919 Otis Krom was town superintendent and he too fixed the road by scraping it and he also fixed the gutters on a hill on the road. The road that year was fixed to the intersection of the Rosendale-Tillson road. In 1920 and 1921 when George LeFever was town superintendent Mr. Mollenhauer asked to have some work done on the road and Mr. LeFever told him he was very busy but that if Mollenhauer would work the road he would allow him \$10 for the work. Mr. Mollenhauer said he had used his team and he scraped and worked the road.  
At the time Mr. Mollenhauer bought the farm there was a gate at the Mollenhauer-Ackerman line. This gate was maintained to keep cattle on the premises until about the time the Central Hudson Company constructed the Sturgeon Pool dam. Then the gate was removed to permit the carting of machinery and supplies to the site of the dam and power house. It is the contention of Mr. Mollenhauer that the road from James street over through the Ackerman property is a public road maintained to permit the Ackermans and himself or others residing on the road to reach their property. His farm is the last one on the road and he contends that the public road ends at his line. When the power house was built he sold to the company a right of way over his lands to the dam and power house, as far as his lands he contends the road is a public one.

**Picnic Held.**  
In 1930 the Grange held a picnic on the plaintiff's place and the farmers used the road without interference. Again in 1931 a picnic was held but State Troopers were on hand to escort the people through. Up until 1931 there was no attempt made to close the road.  
Cross examined by Mr. Flanagan the witness said he and the Ackerman family had been friendly and had visited back and forth for several years after Ackerman moved there. At present and after 1930 he said he was not unfriendly with Ackerman, neither was he what you could call friendly. In 1930 the road commissioner was blocked from working the road by members of the Ackerman family according to plaintiff. He said he had sold a 20-foot right of way to the electric company. Negotiations had been made through F. F. Simpson, who is now a son-in-law of Mollenhauer.  
He said he had never used any other road than that over the Ackerman property. He had heard of the fording place and had seen a

few people use it but he had never used it. There is a road across his place which leads to the fording place. He uses a road from the fording place in winter to haul ice over.

Mr. Mollenhauer said there was a road and ford the creek and then followed a road over the Webster lot and came out on the Rock Lock road but he had never seen anyone use it. On cross examination he further stated that Webster had once owned two farms, the present Webster lot and also the Mollenhauer farm.  
Since 1928 when there was a severe flood in the Rondout he said the ford had been gone. He had never used it prior to that time and had not attempted to keep it in repair.  
**Heard Conversation.**  
He told of a conversation which he heard between Ackerman and Town Superintendent Merrihue in 1931. Mollenhauer said he came along and passed them and went home. He heard Merrihue say, "You let Mollenhauer through," and Ackerman had replied, "We can't stop him."  
The road was "No Thoroughfare" and "No Trespassing" signs. There was never but one gate on the road and that was at the Mollenhauer line. This gate had been moved once by Mollenhauer with the consent of the owner of the adjoining farm. He said the gate was near a steep hill at his line and his horse had run away twice at that point and damaged his wagon and he asked the owner of the adjoining land if he might move the gate some distance away in order that it would not be necessary to stop his rig on the steep hill while he opened the gate. He secured permission and moved the gate in order that the horse would not have to hold back a heavy load while he opened the gate.  
He admitted that he had experienced trouble in having the road repaired by the town. He went to County Superintendent James F. Loughran and told him about the matter and Mr. Loughran said the town superintendent should fix it.  
Mollenhauer went to the town superintendent.  
He was also petitioner in a mandamus action last year to compel the town board to act in having the road built.  
Since 1924 there has been no gate on the road. He said he opened the gate at his line about then and has never closed it since. He testified to the road being obstructed last year by a motor truck and by poles. That was prior to the time an injunction was sought and the time when it was agreed to keep the road open pending final determination of the matter.

**Always Used Road.**  
Mrs. Margaret Clark, formerly Sheeley, was the last witness called at the afternoon session. She said she had been born on the farm in 1871 and lived there until her father's death in 1892. There were ten in the family and they all used the road to the school and had used the road. She said her father had never operated a saw across the Rondout. The road in dispute had always been the means of access to the farm and was used to get to Rosendale. Her last trip to the farm was in 1930 when the road was about the same as when her father resided on the property. There had always been one gate at the westerly boundary of their farm to keep cattle in. That was the only gate she ever saw on the road.  
Cross examined she said she knew of a road over the fording place but had never crossed the ford. There was a road which led to the north part of the Webster lot.  
About two years ago when she was at the farm she had pointed out the right of way over the Ackerman land to Mollenhauer. When she lived on the farm she never saw anyone drive down the road to where the power house now is. The road to the power house over the Mollenhauer property is slightly different now. There has been no road down to the present power house site when she lived there and the road near the farm buildings. The road to the power house is a new one constructed since the plant was erected. In her time she saw people go down the road and cross their property to fish at Sturgeon Pool.  
At this point an adjournment was taken until 10 o'clock Wednesday.

## Matters Before The Surrogate

Ancillary letters of administration have been granted by Surrogate Kaufman in the estate of Giovanni Sappupo of Cantania, Italy, and who died there February 15, 1925, leaving his distributive share in the estate of his son, Alfio Sappupo, a soldier in the American army who died during the World War and left estate in Ulster county. The amount involved is \$5,500. The letters were granted to Philip Spinelli, Borough of Brooklyn, chief clerk of the legal office of the Consulate General of Italy at New York, who represents Carmela Cantania, a daughter of Giovanni Sappupo and sister of Alfio and who under Italian procedure has been selected as attorney in fact for the estate of her father. Under Italian procedure for administration of estates in which the deceased dies without leaving a will, the custom is for the next of kin to select one of their number to represent the estate and act as attorney in fact.  
The will of Elizabeth J. Cruickshank, who died in Kingston, December 12, 1931, recently admitted to probate, disposes of an estate valued at to exceed \$10,000 real and more than \$3,000 personal. Robert F. and William H. Cruickshank, sons, are the executors named in the will. Charles W. Walton is the attorney. To sons, Robert F., James H., and William H. are left various specified articles, including moose heads, wild pigeons, a case of English game birds, polar bear skin, case of humming birds, articles of jewelry, etc. To granddaughters, Elizabeth E. McKenzie and Elizabeth Cruickshank and to daughters-in-law, Florence Cruickshank and Gertrude Cruickshank, jewelry, fur coat and furs. The home property at Big Indian, including land, buildings and fixtures goes to the son, William H. Cruickshank, for life and at his death to the son, Robert F. All the rest of the estate is divided among the three sons, James H., Robert F., and William H.

## OLIVE BRIDGE.

Olive Bridge, July 27.—The Olive Bridge 4-H Homemaking Club will hold a "hot dog" roast Tuesday, August 2, in Olive nursery, at the rear of the Olive Bridge ball diamond. "Hot dogs" and rolls, soda and homemade ice cream and candy will be on sale. Everyone welcome.  
Congratulations are extended to Mr. and Mrs. James Bush at the arrival of a son, Arthur James, at the Benedictine Hospital. Both mother and baby are doing fine.  
Miss Hazel Burgher of Krumville, who recently returned home from the Benedictine Hospital, where she underwent a serious operation, is improving rapidly.  
Miss Edna Oakley returned home last week after spending a few days with her grandparents, Mr. and Mrs. John Kelder, of Samsonville.  
Miss Edna Gessner, who is a student nurse at the Benedictine Hospital is spending her vacation at her home in this place.  
John Bush is employed at Gaylord Ayres' during harvest. Mr. Ayres has a few city boarders.  
Mrs. Leroy Davis has returned home after spending a few days with Mrs. Andrew Davis of Washingtonville.  
The Crusader meeting will be held Friday night at the parsonage. Members come early and bring tennis rackets.  
Mrs. Cecil Gray and Mrs. Elson Oakley called on Mrs. Clarence Donohue of Krumville Monday night.  
Mrs. Ray Crispell is employed at William Quick's.  
Mrs. Gaylord Ayres called on Mrs. Ezra Silkworth Saturday night.  
Florence and Ida Krum have returned home after spending a week with Mr. and Mrs. Earl Carson of Hobart.  
George Van Kleec and son, Lester, were business callers in this place Monday night.  
Ella Krum called on Edna Oakley Monday afternoon.

## Killed Aunt, Stabbed Uncle for Revenge

San Jose, Calif., July 27 (AP).—A strange story of revenge which led a 20-year-old youth to kill his aunt and attempt to slay his uncle, a wealthy Manila importer and exporter, to avenge a wrong done his father, was told by San Jose authorities today.  
The youth, George Douglas Templeton, Jr., University of California student, authorities said, confessed in Oakland, Calif., where he was arrested early today.  
Calm and apparently without regret, he was brought here to be charged with murder for the killing early yesterday, of Mrs. Lillian Babcock.  
Meanwhile, William R. Babcock, head of the Philippine delegation to the Olympic games and a former business partner of Templeton's father, lay dangerously wounded in a Palo Alto hospital where a blood transfusion was ordered.  
The desire for revenge, the confession related, hinged on the five-year litigation between Babcock and George D. Templeton, Sr., formerly partners in Babcock and Templeton, Manila importing and exporting firm of which Babcock is now president.  
The death of Babcock and his wife, authorities quoted young Templeton as saying, would not only avenge a loss of a "large sum of money" by the boy's father, but would rehabilitate his finances through inheritance.

**EXTRA SHELF SPACE**  
for house keeping convenience

**WHITE MOUNTAIN ELECTRIC**

"More shelf space!" demanded the practical housewives who helped design the White Mountain Electric refrigerator. So we made the cabinet extra roomy—with exclusive features for extra convenience. And famous engineers designed a chilling unit built for lifetime performance, at lowest operating cost.

Only White Mountain Has ALL These Features

- steel cabinet • baked enamel exterior; porcelain interior • colored finishes • seamless lining, rounded corners • chromium hardware • 8 point temperature control • increased shelf space • sliding flat wire shelves • milk bottle cutout • greater ice capacity • rubber ice trays • vegetable crisper • broom high legs • vibrationless top mounted unit • removable buffet top • no radio interference.

**DON'T BUY AN ELECTRIC REFRIGERATOR UNTIL YOU SEE THE WHITE MOUNTAIN**

**\$10 DOWN—24 MONTHS TO PAY BALANCE**

**STOCK-CORDT INC.**  
KINGSTON, N. Y.
